FEATURES

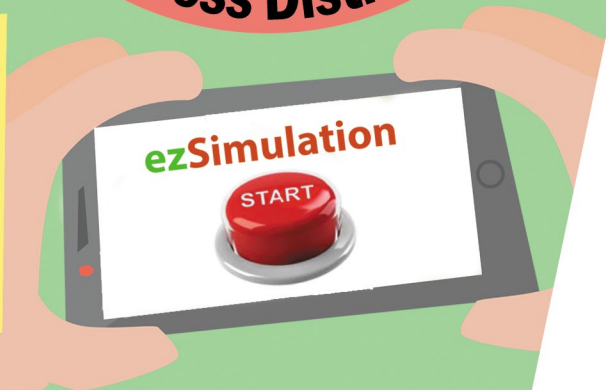

If you are ISO22301 certified or are maintaining a BCM programme in your organisation, conducting annual exercises is a must and could be a painful experience if you have a lot of people to test in multiple locations.

Not to worry! At BC Connex Pte Ltd, we have specially created ezSimulation to solve your BCM simulation exercises woes.

ezSimulation is simple to use, engaging and can be rolled-out quickly to hundreds and thousands of users. It will be the next industry standard in exercise automation.

Mobile support available!
